

Statement Regarding City of Perry – District 3

The City of Perry contracts with the Houston County Board of Elections to conduct all election proceedings.

Recently, the Board of Elections was notified of a discrepancy involving District 3. After review, it was determined that an outdated district map was unintentionally being used by the Board of Elections which affected a small portion of what is currently District 3 but was previously District 2.

The information is being corrected, and the updated district data will be finalized by the close of business on October 31. This update will ensure all information is accurate for Election Day. Any further corrective measures will take place after the election.
