

## **Voluntary Outdoor Water Conservation**

Help us conserve water by limiting outdoor water use by adhering to a watering schedule.

Even addresses should water on Mondays, Wednesdays and Fridays.

Odd addresses should water on Tuesdays, Thursdays and Saturdays.

Everyone should refrain from watering on Sundays.

Check with your local county extension agent on the amount of water your lawn may require.

Collect rainwater and reuse when possible.

Turn your sprinklers off when raining.

Conserving water is everyone's responsibility and can make a big impact on the environment.
